

Der Lizenz-Server (Lizenz-Management)

The GridVis® License Server manages the editions and licenses required for the GridVis® network visualization software.

The screenshot shows the GridVis License Server web interface. At the top, there is a dark blue header with the GridVis logo on the left, a home icon, and a user login status "Logged in as max@mustermann.de" with a "Logout" button. Below the header, the page title "License Server" is displayed in a grey bar. The main content area is divided into a left sidebar and a main panel. The sidebar, titled "Licenses", contains two sections: "Licenses" with options for "License list" and "Activate installation" (the latter is checked), and "Account settings" with options for "Change details", "Change username", and "Change password". The main panel, titled "Welcome to the License Server", contains the following text: "You can find your available options in the menu on the left." and "Alternative the button brings you directly to the activation process." Below this text is a button labeled "Activate installation". At the bottom of the page, there is a footer with the "Janitza® 2.0.2" logo on the left and "Privacy" and "Imprint" links on the right.
